PROFILE

Motivated front-end developer with basic knowledge of HTML, CSS, and JavaScript. I am eager to learn and enhance my skills in responsive design and user experience while working in a dynamic team to create user- friendly web applications.

EXPERIENCE

IT Intern (OJT)
Juvenile Justice and Welfare Council (JJWC)
February – May 2025

- Developed the front-end interface for the Property Management System, focusing on user profiles and property asset management using HTML, CSS, and JavaScript.
- Created the front-end of the Interactive Map System and managed all Philippine polygon data using GeoJSON and JavaScript.
- Built a single-page front-end layout for the Juvenile Justice Management Information System (JJMIS) to manage and display juvenile case data.
- Developed a front-end notification feature for the Mailer System to automate internal email alerts.
- Used Figma for UI/UX design and Visual Studio Code (VSCode) as the development environment.

SKILLS

Basic knowledge of HTML, CSS, JavaScript, Kotlin and Php
Experience in creating wireframes and prototypes (Figma, Canva, Miro)
Attention to Detail
Ability to Work Under Pressure

EDUCATION

Don Honorio Ventura State University
Bachelor of Information Technology
Bacolor, Pampanga
2021 – present
